The Printer's Convention-Murder of Mr. Gor sech-Political-Elopement.

respondence of The N. Y. Tribune. Baltimonts, Wednesday, Sept. 17, 1851-P. M. The Printers' National Convention, as you are already aware, adjourned on Tuesday night. The whole of Monday and Tuesday was occupied in The whole of Monday and Tuesday was occupied in perfecting a plan of organization for a Permanent National Convention, which resulted in the final adoption of a Constitution and By-Laws and Schedule of Rules for Work. The various sections were separately discussed, and the Convention sat till a late hour each of the last two migrats, in order to get through with its business. The Constitution, &c., will be published manediately, when the craft can peruse them. They are very lengthy, and, until engrossed, very difficult to get at—otherwise I should have sent your a copy. The debates, since my last, were not of sufficient public interest to report. The Convention, although slimity attended, has done much for the craft—having made a negitiving which needs result in much good to every printer in the Linon.

The excitement relative to the murder of Mr. Ed-ward Gorsach, in Chester County, is still very great, sthough the hotspurs have cooled down somewhat. The action of the Pennsylvania and United States Indical officers is looked to with deep interest by

Judicial officers is looked to with seep inners of every Mary lander.

The Whites, Loces, and Umon men, have each now made their nominations for the various offices under the new Constitution and with these tackets and the Independent candidates in the field, a regular Kilkenny political fight will come of. The Whiteparty will be constituting of electing their whole ticket. Rikenny political fight will come of. The Wrigparty have the opportunity of electing their whole ticket, but their want of union and harmony will more than likely, tose toem nearly alt—if not all—their cambidates. The "Court House Chique" as they are lemed, have shown their hand—having been mistrumental in normating the "Union" ticket, because, at the Ward moetings the young Wings had ousted all their triends in a majority of the Wards. They finally got as influence in the Whitz Convention, and we all here know the result. If the booss do not succeed, it will be because some of their nomines are so unfit that honest men cannot vote for them.

A former police officer of this city, named Moon, disappeared a few days since with the wife of a man named Gapes, and with her over \$500 of her hasband's money. The husband followed the pair to Mansfield. Onlo, where he overlook them, recovered

Mansfeld, Onio, where he overlook them, recovered part of the money, and left form.

The weather has been extraordinarily cool for several days, and heavy white fronts have failen. These clotters and fires, agait and morning, are by he means uncomfortable.

The trial of G. W. Stewart, for the murder of Thomas Moody, at Prontest. Theater, takes place at Effect's Mults to-morrow.

Play in the Mountains - A large quanof every wood, worth about \$500, was burned by

CITY ITEMS.

GAS UP THE RIVER .- The propertyholders in a certain defined district in the village of Poughkeepsie, are to vote on the 27th inst. whether he streets in that section, comprising the most business part of the place, shall be lighted with gas by a tax on the property. A proposition submitted to the inhabitants of the whole village, last winter, was oted down, but it is now thought that the decision all be the other way. The law under which the one is to be taken requires a majority of all the roperty to secure the light. If a man owning tenhousand dollars worth of real estate neglects to vote, the value of his estate is put down in the negtive. The total amount of property in the district sestimated at one million and a balf of dollars.

THIALS POSTPONED .- Court of Oyer and Terminer-Before Judge Edmonds and Ald. Chapman and Kelly -In the case of Michael Mulvey. shose trial was put down for Thursday, the District Attorney said the witness for the prosecution he referred to yesterday is still sick, and he must ask to have

the trial postponed to Monday. Granted Mr. Blunt said he was ready to proceed in the case of Angelo Squarza, and called a number of witnesses, out they did not answer. He said he would be compelled to apply for attachments to bring them up The motion was granted, and the Court adjourned to

SALE OF A STEAMSHIP.—The propeller scamship West Wind, built for G.W. Aspinwall, Esq., was on Wednesday bought in at the Marshal's sale at the Philadelphia Exchange, by Reancy, Neafic & Co., for account of those having claims for her ma-chinery and outfit, and will be resold for their benefit. This ressel is 165 feet long, has two engines, with hirty inch cylinders and twenty-six inches stroke, and can carry from four to five thousand barrels, beedes accommodating sixty-one passengers. Her enones are furnished with Pearsson's condensing apparatus. At her trial trip she ran at the rate of leven miles per hour. Her cabins are light and airy.

Fire. - Yesterday morning, at 1; o'clock, 1 are broke out in a two-story brick dwelling-house on Seventh-av., between Thirtieth and Thirty-first-sis., which was partially destroyed before the firemen could subdue the flames. The fire originated under the stars leading to the upper story, and it was with the greatest difficulty that the immates of the house scaped with their lives, several being compelled to | fer comp from the rear windows into the yard. The re was evidently the work of an incendiary.

Science AT AN EBB .- The Sarti collecon was not sold on Monday : not a bid worth notice ses offered. Of course the whole collection will be aken back to Europe. Our M. D. manufactories right to be ashamed of this but it is doubtful to one who reads their lists of graduates if they could be ashamed of anything except a scarcity of parchiment professors. It is really too bad that articles so evaluable to medical and general physiological cience could not have been kept in this City.

THE CHAMPION .- The Hartford Times of Thursday morning says that the steamer Hero atempted to get off the Champion last night, but could not do it. She stopped on her upward trip, hitched large cables to the Champion, and after a detention of three hours and breaking the cables, she came off leaving the Champion still aground. It is a bad stick, as she ran on at a high tide.

to Our omnibusses are getting a good listance up the River, a line having been established last week between the villages of Kingston and Rondout

REPAIRED .- The steamboat Mazeppa has been thoroughly repaired since the accident which occurred a few weeks since, and is now running as

The barn and out-houses of Ed. O'Neil, North-Front-st., Kingston, were burned on Tuesday night.

Outrage.—A few days since, says The kindsthock Sentinei, the inhabitants of Stockport were thrown into a state of great excitement, by the reported commission of a feedists outrage upon the person of a highly respectable and intelligent young lady of that town, aged 22 years, by an introduct who has hitherto sustained a fair character and occupied a respectable position in society. The name of the young lady, we understand, is sarah Philing, and that of the accused, Newton Gay, now of Coxsackie. After the perpetration of the outrage, the outred fady, smarting under a sense of dishonor, attempted said-destruction by taking landship. Her purpose, however, was frustrated by the timely aid of Dr. Saimon, of Stoyvesant Falls, whose unremitting exertions saved her life. The accused was on Friday last arrested upon a warrant issued by Finneis W. Bradley, Esq., of that village, and an examenation took place on Saturday. After hearing the evidence, the magistrate promptly committed the accused to take his irral for the offense charged, at the next Oyer and Terminer in this county. Gay has, since his commitment, been admitted to bail, himself in the sum of \$5,000, and four sureties in the sum of \$4,000. OUTRAGE .- A few days since, says The

SERIOUS ACCIDENT. - About eight o'clock Wednesday evening a man named Inglebeth Kimm, while walking through Orange-st, accidentally missed while walking through Orange-st, accidentally missed his footing and falling heavily upon the sidewalk frac-tured his skull in a dreadful manner. He was found lying upon the sidewalk in a state of insensibility, and bleeding profusely from the wound, by an officer of the VIth Ward, who took him to the Station House. Dr. Simmons was called in, who dressed the wound, after which he was conveyed to his residence, No. 101 Elizabeth-st. The Dr. states that there is but of Elizabeth-st. The Dr

A son of Mr. Gilbert Tuttle, about O or 12 years of age, on Monday fell from a small scat near Coxsackie, in which he was sailing, and was drowned. -

On Wednesday week, Wm. W. Cole, of Kingston, Ulster Co., was drowned in Esopus Creek, while trying to catch an eel, which he in-tended to swallow alive as a cure for fits.

WASHINGTON MONUMENT AT CASTLE GARDEN -The Special Committee on the subject of enlarging the Battery, to whom was referred the annexed preamble and resolution in relation to the erection of a Monument to Washington, on the site of Castle Garden, and the petitions of Edward N. Rogers, Col. John Cox. F. & D. Fowler, and many

others, for the same object,

of Castle Garden, and the petitions of Edward N. Rogers, Coh. John Cox. F. & D. Fowler, and many others, for the same object.

RESPECTPULLY REPORT,

That the subject so referred has received their careful consideration in connection with the question which led to the formation of the Committee, viz. the Enlargement of the Battery. This enlargement will render the present structure known as Castle Garden an unsightly object, and the road taste of the public will call for its removal.

Your Committee would, therefore, orgone the appropriation of this spot for the virection of a blumament in commencation of the deeds of the immortal Washington.

The erection of Washington Monuments' in other parts of our country, and especially the great National Monument now in progress at the Capitol, are indications of the softwards exteriorated by the whole People of the United States, nor is there wanting in this city a disposition to rear a monument which shall endure as a memorial of the deep legiting of reverence envertained by the scitzens of New-York, for the great mann of Washington.

Evidence of this is found in the repeated efforts made to accomplish the noble coloret, and of the sums of money massed for this purpose. Entire is believed that the main cuties of non-success of these efforts, is owing to the what calls such as a removable location for the long destred monument. It is believed that a selection of the size of Cassic Garden will not only remove the obsections and difficulties which have harden to be obsections and difficulties which have harden to be found in the country. Would be the indicated the success of any legalized Washington Monument. Association, that have been formed for the accompishment of the success of any legalized Washington Monument. Association, compose for men in whom the public have confidence.

The size offers the most commanding position for a monument of country, would be the first object to meet the special country would be an impressive to their made, to believe of any legalized to

reverence the Union under which we have so long prov-pered, and under which it is based we may continue to

pered, and under which it is layed we may continue to proper to the east of time.

The Art of Cashe Carden is appropriate, as being the scene of the early structives and the closing act of the Revolution ary drama. It was near this spot where the particle of our Colornal history were went to assemble, where the tatue of Goover III fell by the hands of the Becoultion ary actors, where Washington and Financial of the Army where, in the close of the war, the fare well of the Army where, in the close of the war, the fare of our country was first russed, where the first President of the United States took his manufactural such, and where the first Courtes with the Color of the close of the war, the fare of our country was first russed, where the first President of the United Another came of Allette of the attempts to street a monthment to Washington in this Cote has been the want of a peoper plan combining practical middly with arianness and arristic Gossin. Your Committee resommend that in the erection of an monitured on the set of Clustic Garden, ample provise to be made for Brill Research and Armorres with the control of the Country country and such country.

This spot is rocky foundation, comprising an area of a stone on a stone of a

Your Committee recent the size of Castle Garden be appropriated Resolved. That the size of Castle Garden be appropriated for the purpose of crectum thereon, a Manuscratta Washington, and that in the bare of such modument, rooms be recorded for the First Div slop of the N. Y. Sair Milita, whenever any bending a sascution of respectible clipson shall have raised by subscription the sum of \$20,000 for this object.

Adopted, and Assistant Aid. Theman. Crane and Ward appointed the Committee.

By Assistant Aid. Smith Resolved. That the sum of one thousand dollars be and in hereby appropriated to the Fire Department of the City of New York, upon the condition that the uncreast the contact the rate of 7 per cent, per animum, be paid to the widow of the late John Green, who lost his life while in discharge of his duty as a fireman, by heang ron over by No. 44 Ecgme, while proceeding to a fire, but long as she shall remain unmarried, for the support and education of her children, and in the event of her second marriage or death, the abrorasin in the event of her second marriage or death, the abrorasin infilt they shall arrive at the age of 21 years, when the rancipal shall revert for the use of the Fire Department Fund.

Adopted, but reconsidered, and referred to the committee on the Fire Department.

The Board then adjourned to Priday afternoon at 5 o'clock. From the minutes.

John H. Chambers, Clerk, pro tem.

REVOLTING INBUMASITY .- We find the REVOLTING INBUMANITY.—We find the following in The Bosseville (Mo.) Observer of the 26th air. The following details of one of the most shocking barbarries committed in a community of civilized people, has seiden been equalied in the autals of crime. In Morgan tourity, not long ago, a crimen felted, leaving a window and two small callidren, the oldest a gail, about seven years of age. Not long after the death of her bussonst, the woman in arrived again. Soon the gail died, and very recently the boy was reported missing. The sudden and may be roots disappearance of the child, together with the fact that open the death of the woman, a rest bussonst the property her possessed was active be two can drea, aroused suspection in the neighborhood, when a search was many for the boy.

wood's adjacent, with both logs broken and his mouth sewed up. Being still alive, however, he was properly cared for, when he reported that his mother and step-father had been the perpetrators of the deed, and, in addition, that his sister's skull had both broken by them, which caused her death. The boy's statement further tended to develop the fact, that the gri was known before her death to have had a benoage around her head, and upon the boy's being exhimed, it was found as the boy had stated, that the skull was fractured. The parents were arrested and imprisoned at Versailles.

to anchor in the President's Roads at 10 o'clock in
sight and dame up to her whart this morning. S.
was recoved with a salute of 31 guns at Bast Basto
tiel was also saluted by the Revenue Cutter. The resident and spite, with all the distinguished guests, tocceded down the harbor this forenoon on an ex-

Mr. Fillmore, the members of the Cabinet, the Canadian cuests, and the high State and City Officers, were taken down by the S. S. Lewis, while some hundreds proceeded in open boats. They are expected to return about 4 o'clock.

The Corporation Dinner, at the Revere House, took place at S. O'clock last might. The President retured before the cloth was removed.

Mr. Webster was not present. Specifies were made by Sir Allen McNab, Hon. Francis Hincks, Col. Hum, of the British Army Governor Paine, of Vermont, and others, but, as no member of the press was afmitted, we have no report of the specifies. was admitted, we have no report of the speeches.

Lord Elgin has not yet arrived. He is expected

Liberty Party Convention.

Liberty Party Convention.

BUSSALO, Wednesday, Sept. 17—night.

The Convention met again at 10 o lock, when, after the transaction of some unimportant business, the Business Committee, through its Chairman, Gerrit Smith, reported a series of resolutions, forming a Platform which temptraces the creeds of the extremost Abolitionists, the most uitra of all the opposers of the Fugitive Slave Law, the Temperance men, Peace men, Land Reformers, Women's Rights men, and Free Traders, and it calls upon all these different Reformers to come and join their party, and thus mate all the great reforms of the day on a broad basis. They denounce the Colonization Society and are They denounce the Colonization Society, and both the old political purios, in the strongest terms, and call the President, and the members of the late Concress who voted for the Fugitive Slave Law, parates and murderers.

he Convention was addressed in the afterno

and Addington of Beffalo. All according the above Platform.

A Committee was then appointed to report and able names for the nominess for President and Vice President, the first thing to morrow morning, when the Convention adjourned to tea.

At the evening session the meeting was addressed by Gerri Smith and Frederick Douglass in eloquent terms. Their speeches were perfectly characteristic of the men, declaiming loudly against every body and every thing that does not belong to their party, or square with their peouliar ideas in short, they were a repetition of their poly speeches, made at the various Liberty meetings for a number of years past.

There was a very slim attendance in the morning, but more in the afternoon, while in the evening there was an antifernee of some eight or nine hundred. There are, however, very few from other States, and the Nominating Committee is composed chiefly of

There are, however, very few from other States, and the Nommating Committee is composed chiefly of New-Yorkers.

The nommations will probably be made to-mor-row. Anti-Slavery books and carneatures are pub-licly offered for sale on the Restrum, and the auti-ence invited to come up and purchase them.

Resignation of the American Charge at Denmark.

Washington, Thursday, Sept. 18, 1831.

Walter Forward, of Pa, the American Charge at Denmark, having tendered his resignation some weeks since, and requested from Government peraussion to return home, the President, last week, accepted his resignation, and directed letters of recall to be transmitted him.

Charles H. Ladd has been appointed Navy Agent at Portsmouth, N. H., vice Cutter, resigned.

Fire at the Dennison House, Cincinnati. The fit the Dennison House, Cincinnati.

Cincinnati, Wednesday, Sept. 17, 1831.

The two upper stories of Dennison House were destroyed by fite at 1 o'clock this morning, and the lower part of the house was greatly damaget. Some loggae was destroyed, and several boarders lost various sums of money. The fire originated in an adjoining livery stable, which was destroyed. The loss is heavy.

Odd Fellowship.

Ballinsons, Thursday, Sept. 18, 1851—1 P.M.
A Constitutional amendment restoring Passed
Grand Sires to vote in this body has just been voted
upon—Ayes 26, Noes 64.

Markets CHABLESTON, Sept. 17. Sales were made this morning of 460 bales of Cor-rox at \$1.00 c., holders having somewhat relin-uished their former framess.

Markets New Obligans Sept. 16. The sales of Corros to-day have been 1,000 bales, at declining prices, Middling being at 80 and Fair at 91. Small sales of new Ponk are making at 16.30. Business of all kinds is dull. The Europa's news has just been received, but its effect is not yet apparent. The weather continues pleasant.

UTAH.

Organization of the Territory .- Election

Legislature-Business Prospects-Difficul-ties with the Indians. orrespondence of The N Y Tribune. Great Salt Lank City, Tuesday, Aug. 5, 1851 The organization of this Territory is now progressing. The Governor has issued his proclamation cailing an election for Members of the

Territorial Legislature. The nominations have all

been made. There are seven Counties and jone Precinct laid out in the Territory consisting of Grent State Davis, Weber, Toocle, Utah, San-Pete, Iron, and Bridga Precimit. The election comes off to day, but being obliged to send this off this morning, I cannot forward you the result. There are numerous buildings in course of completion here, to-day about five hundred men are digging for the foundation of a new and splendid Tabernacle, having rock, &c. The Council-House is receiving a cost of Plaster Paris shortly, the Temple will be a cout of Plaster Paris' shortly, the Temple will be commenced, and the miention is to build a most magnificent and costly building, one that in style of architecture will much surpass the provide Nauvoo Temple, and be a winder to after ages. It is in contemplation to build a Railroad to Iron Mountain, Iron County, about 350 males from here, where there is an abundance of Iron ore, samples of which I have seen. Coal obtainmons also abounds within 60 miles of this City. A Railroad will be built to bring that necessary article of fuel to the door of the critzens. Chalk, Plaster Paris, Quicksilver, &c. is plenty near here. Mountains of Salt are within twenty-five miles. A Railroad will soon be constructed to the Cañons for the purpose of furnishing wood for the consumption of the citizens of this City. Settlements are about to be made in Yoah and Paroan Vallies. The emigration to this Valley will be large. The crops are exceedingly good, the yield of Wheat to the acre is unparalleled—as high as one hundred bushels have been raised to the acre about sevenity is the average. Corn grows well but is not as profitable to raise. The vegetables raised here are the finest I have everseen root vegetables remain in the ground all winter without injury.—What few fruit-trees there are here are doing well. The timber is composed of Balsam, Fir. Pine, Quaking Asp. Colms Wood, Mapie, and Box Elder. Lumber is fitly dollars per thousand. Wood, \$10 per cold. Flour, 15 cents per fb. Surgar and Coffee, 40 cents, wholesale or retail. Goods of all kinds plenty, but money very scarce. Many mimers are expected in from California this fail. Col. Ben. Holliday leaves here in a few days for that State with 800 head of beef cattle and 100 mules. This is the best grazing country I have ever seen, the vallies abound in good grass and clover. The people are very industrious, quiet critizens there is isnot a coffee, 40 cents, wholesale or retail. Goods of all kinds plenty, but money very scarce Many mimers are expected in few money and the first commenced, and the intention is to build a most magnificent and costly building, one that in style of

derbury and Snow are here, also Secretary Harris and hely, all well. Judge Brochus and Mr. Holoman, Indian Agent, are daily looked for. I will keep you advised of passing events in this Eldorade of the West.

Yours respectfully.

JERSEY ITEMS.

NEW-JERSEY PROSPRATE OF LIME -Among the proceedings of a late meeting of the Royal Agricultural Society of England, a report was made by the Secretary, of the results of an extensive correspondence relative to Mineral Phosphate of Lime is the United States. We copy the

phase of father in the creek of the report.

1. The Mineral Phosphate of Lame has been found in the American Saise of New Jerser and New York, and there is a great mobility that it will be discovered in other States of that Union, as well as in Canada; it is also not state of that the creek of the creek

in which is occurred was not waited. It was found by Prof. Muscleyne to contain 35 per cent of the phosobates of lame, row, and alumina. Its importation was made by Messisferous, of Shouford place. Liverpool. One went alone, the covered in New Jersey, would apply the English, marked its many years.

3. In the State of New-York a great mass of this mineral had been discovered, and a shaft had already been sunk to the deeth of nearly thirty feet. This wein occurred at Crown Point, near Lake Champlain, in Esses County, and the abundance of the interest was so creat as to lead to the conclusion that the more contained an inextinusable supply the locality was also favorable for facility of transport and ready shimment. This rein comusted of crains and crystals, and on analysis, in America, has been found to contain a much linear exporting than the Jersey mines, of which some specimens yielded into about farty are cent of the phosphate of time, while the Crown Point immess great either par cent, of that substance, free from chalk, controlling only a small amount of questic ingrains, and of the fluoration and chloride of lime. It is very soft, and outcorress assisty, and is more remainly dissolved than the Jersey variety. It can be delivered in London, in the rough state, or powdered rough for the count of the longth most desirable. By single horse power two tuns a day may easily be ground.

4. It is now fully believed by modernite and intelligent Americans, that the United States phosphate can be afforded in the English market at such a price as will render it a cheap (retakizer, and, as it can easily be reduced to provide its a those crops for which phosphate of lime has been found by experience to be advantageous.
